

LUXE HAVEN

A mix of lively patterns, bold colours and sophisticated materials make this Kolkata home by AK Enterprises Pvt Ltd. anything but conventional

CLOCKWISE FROM TOP Part of the living-dining zone, the marble topped dining table and the upholstered chairs are tucked in a cosy area with a mirrored console set against a patterned wallpaper; Founders and Principal Designers Amit Maitra and Kallol Baroi, the A and K of AK Enterprises Pvt Ltd.; The homeowners wanted a modern home accentuated with details and a warm vibe; A grandeur of scale and material sophistication envelops one of the bathrooms

Just like an artist identifies its muse and frames it within their piece of art, a designer anchors the context of a home and outlines a conceptual planning around it. When Founder and Principal Designers of AK Enterprises Pvt Ltd. Amit Maitra and Kallol Baroi were first approached to design this Kolkata home, they were struck by the immense potential of the 3,000 sq ft blank canvas. Designing a home for three generations who wanted to live like a joint family yet respect each other's privacy, they concocted a soft and subtle ambience throughout the space. Following a Neoclassical theme, the simplicity of geometric forms has been captured flawlessly. Upon entering, a dark walnut hued double leaf door with groove lines and a lobby finished in Statuario Italian marble suggests the inception of an elegantly designed home. The dual apartments are connected through a corridor embellished with a unicoloured grey tone Silver River Italian flooring amidst white statuario marble inlays. In the south facing left wing, the bay windows abutting the spacious living lounge is flanked by two zones—the master bedroom and the den opposite to each other. Their entries are entirely camouflaged with clean panelled walls in contrasting shades. What further redefines this area is the mix of soft and bright pastel colour tones used in the furniture arrangement and blown glass chandelier. Traversing the northern end, a casual sit out lobby, worship area and three bedrooms flank the home. Keeping in mind the aspiring maturity yet the playfulness of a child, the kid's bedroom houses cosy nooks and fun components with happy shades of blue and yellow. The son's bedroom and the guest room are furnished in muted brown and beige pastel tones, continuing with the central theme of contemporary ambience. Subtle yet strong forms and minimalist material application defines this project. Attention to detail, functionality and materiality responding to the homeowner's way of life without overcomplicating design has always been a way for AK Enterprises Pvt Ltd. rather than just a trend! **Instagram: @akgroup_org**
