AMIT MAITRA'S HOME IS A PERFECT BLEND OF CONTEMPORARY DESIGN AND WARM DECOR.

Designer **Amit Maitra's** residence is a statement of contemporary elegance and minimalism. Designed along with the co-managing partner **Kalol Baroi** of his firm **AK Enterprises**; the home is characterized by freshness and simplicity. The apartment is located in Kolkata's classy South City complex. The 1,400 sq. ft. home includes a living cum dining area, a kitchen, three bedrooms along with two bathrooms and two verandahs.

The living area has a modern feel with its L-shaped beige sofa. Furthermore, it has an attached verandah connecting the interiors with the greenery outside. One can find sleek furniture that has been set against the stylish glass wall. This wall is bound by wooden frames and smart utility drawers at the lowest level, which lends charm to the decor.

OPPOSITE PAGE: The living room has a modern L-shaped sofa and minimal furniture set against the wall.

ABOVE: The living room has a collage of family photographs randomly framed on wall adding to a cozy feel.

BELOW: The dining room has a glass topped table and chairs upholstered in white leather lending a chic look.

ABOVE: The son's room is done in a vibrant green and white colour scheme.

RIGHT: The master bedroom with its chequered panelling from ceiling to floor, showcases sepia toned photographs of the couple's son.

BELOW: The contemporary kitchen is dominated by a cheerful red and silver colour palette.

OPPOSITE PAGE: The guest room finished in standard oak and wedge veneers, also doubles up as the puja room.

The false ceiling gives way to walls finished in gypsum board. It is fitted with cove lights, thus providing a warm ambiance. An interesting photo frame of randomly placed family photographs brings a cozy appeal to the space.

The dining area is segregated from the drawing area by a string curtain that cleverly conceals an overhead storage room. The dining chairs have been done in contemporary white leather upholstery.

The modern and well-equipped kitchen has red and silver stripes on a grey base. To match this colour scheme, the shutters are finished with polyester coat of red and white. The master bedroom comprises a storage bed with a veneer finished back panel. The printed vinyl extends all the way to the ceiling, breaking the monotony of the plain and also lending a dramatic touch to this space. Another personalized touch comes through a chequered pattern created on one of the walls with sepia toned photographs.

The son's room has a green and white colour scheme with white matte vitrified tile flooring. It contains a bunker bed with a decorative MDF panel, turning it into a playful space. Green and white printed Roman blinds underline the overall colour scheme of this area. The guest room is finished in standard oak and wedge veneers, with a low height informal bed and an oversize wardrobe. It also has a Puja room.

The home of Amit is underlined by a functional aesthetic with an easy-to-maintain straight-lined design that is subtly merged with a chic decor.
